Meeting 03:
Meeting date: 05/02/2019, 4:00 PM to 5:30 PM
Location: Library, SNO 222D
Attending: Gordon McCreary, Tammy Vo, Ken Gil Romero, Matthew Chan, and Zhe Li
Absent: N/A
Facilitator: Ken Gil Romero
Minutes Taker: Matthew Chan

Discussion summary:
As a team, we started this meeting by having all team members to install the Eclipse plugins for the coding project, so that we can make sure all of us are having the same programming tools and environment. This can help to organize the code better in the future.

We discussed the jobs that need to be finished for Deliverable 2 such as making diagrams for the domain classes, preliminary system sequence diagram for US01, and include relevant design decisions and rationale to the design document. We discovered a online diagram building website called "draw.io", and we are going to use it to make the domain classes diagrams and the system sequence diagram. Besides, we also discussed some coding implementation ideas such as what data types should be used for different types of objects.
